ABOUT ME

I'm a BE graduate with 3 years of hands-on experience in software development, specializing in building scalable applications and leading teams to deliver high-quality solutions. My strengths lie in both technical execution and effective team collaboration. I'm passionate about solving real-world problems through technology and I'm eager to contribute to company where innovation, impact, and continuous learnings are valued.

EDUCATION

2018 - 2022

Visvesvaraya Technical
University (VTU)

Bachelor of Engineering (BE)

Electronics and communication engineering (ECE)
CGPA: 7

SKILLS

- Next JS
- React JS
- Typescript
- Redux
- Github
- Javascript
- Expressjs
- MongoDB
- Node JS
- Material UI (MUI)
- Software development
- Front-End development
- Test driven developement (TDD)
- MERN Stack developer
- AI Adaption

EXPERIENCE

04-2025 to Current

Codewave

Software Developer (Latest)

Responsible for developing software features by building robust and scalable solutions using **Next.js** and **React.js**. Actively involved in gathering and analyzing client requirements, translating them into effective deliverables. Ensure high code quality through regular code reviews and testing components using **Jest**. Skilled in **integrating APIs**, including **GraphQL**, to enable efficient data flow. Collaborate with cross-functional teams to implement updates, troubleshoot issues, and maintain performance throughout the **software development lifecycle**.

02-2024 to 03-2025

Winline technologies

Software Developer

Focused on building responsive and interactive web pages with modern UI using **JavaScript** and **React**. Skilled in integrating front-end interfaces with back-end systems by consuming **RESTful APIs** built with **Django**, ensuring seamless data flow and user experience across applications. Experienced in writing unit **test suites and cases** for components using **Jest** to ensure code reliability and maintainability.

05-2023 to 02-2024

Firstcareer

MERN Stack Developer

Building full-stack projects using **Next.js**, focusing on performance, **SEO**, and server-side rendering capabilities. Styling user interfaces with **Tailwind CSS** and **SCSS** for clean, responsive, and maintainable design. Developing and integrating RESTful APIs within projects to enable dynamic data handling and seamless backend communication.

12-2022 to 05-2023
Pluasibility Solutions

Junior Frontend developer
React.js / Frontend Developer with experience in building reusable, scalable UI components using JavaScript and **TypeScript**. Skilled in creating dynamic and responsive user interfaces with React, ensuring clean code architecture, maintainability, and performance optimization. Familiar with component-driven development, state management (e.g., **Redux**, **Context API**), and integrating APIs for real-time data handling.

PROJECTS I HAVE ACTIVELY CONTRIBUTED

- | | |
|--------------|---|
| 1.E-commerce | mksfoods.in |
| 2.Loan App | smkgivings.org |
| 3.Job App | careercall.co |
| 4.AI Project | gearx.ai |

CURRENT STATUS

- 3 Y+ Experienced Software engineer
- 5 - 6+ Projects completed
- Comfortable with English , Hindi , Kannada
- Notice period 2 Months
